Newsletter Fall 2022

Welcome to the 1st SEBD Newsletter

Welcome to the first issue of the SEBD Newsletter. There will be 3 newsletters every year (Autumn, Winter and Spring), which will form an essential summary of the highlights that have happened throughout the year. Contact us if you would like to contribute.

Please take time to have a look through the recent ISDB meeting and travel grant awardees and reminders of our social media accounts. And don't forget our open call to attend Developmental Biology courses!

ISDB Meeting 2021

After a long delay due to the sanitary situation, developmental biologists from all around the world got together in Salgados Palace, Algarve, Portugal for the 19th ISDB meeting. With sessions covering many areas of developmental biology, from Organoids to Development and Disease, the meeting was a great example of how Developmental Biology is thriving.

The SEBD granted 12 travel grants to junior researchers to participate in the meeting. Congratulations to the grantees!

Predoc grants:

Aitor Bañon Gonzalez, Alejandro Castilla Ibeas, Carolyn Engel Pizcueta, Genoveva Guerrero, Palmira Llorens Giralt, Miquel Sendra Ortola, Ana Sousa Ortega, Queralt Tolosa.

Postdoc grants:

Diana García Morales, Alejandro Gil, María Rossello Xamena, Raquel Rouco García.

Asamblea General

During the ISDB meeting the SEBD celebrated an “Asamblea General Ordinaria” with 36 members present. If you could not attend and would like to know all that was discussed, please read the minutes on our webpage.

Open call for applications to developmental biology courses

Are you planning to attend any course related to developmental biology? Don't miss this opportunity.

📅 2022

Becas Asistencia a Cursos Formativos relacionados con la Biología del Desarrollo.

La convocatoria es continua, puedes enviar tu solicitud en cualquier momento.

25th – 28th SEPTEMBER KEBLE COLLEGE, OXFORD, UK
a distributed meeting across Oxford, Barcelona and Paris

“... MOVING FORWARD TOGETHER”

Special Issue

17th Spanish Society for Developmental Biology Meeting: New Trends in Developmental Biology. This special issue gathered 13 original or review publications by members of the SEBD. The SEBD2020 gathered about 280 registrants and received 132 scientific abstracts. This special issue reflects the diversity and richness of the presentations we enjoyed at the SEBD2020 meeting.
